

The 6-th TAFISA World Sport for All Games will be held 6-12 October in Jakarta (Indonesia). Kettlebell sport was included in a program of the Games. Previously known that kettlebell competition will consist of three standard disciplines: biathlon and long cycle for male athletes and snatch for female athletes. Also they will have standard weight of kettlebells for this competition: 32 kg for men and 24 kg for women (only professional class). BUT all athletes will compete in same bodyweight class. Absolute bodyweight class, no any categories.

The last TAFISA Games were held in Siauliai (Lithuania) in 2012. TAFISA has Games ones for four years. So it will be interesting event and useful for kettlebell sport development. Welcome!
